# YALE SensCheck Window Sensor To Suit Yale Smart Doors

## Description

Yale SensCheck™ window sensors are only compatible with Yale smart doors, and can be added to an existing Yale Sync Hub installed as part of the Sync Alarm. The sensor allows the status of your window to be monitored from anywhere using the Yale Smart Living Home App, where you can check whether the window is open, locked or in the vented position. Alerts can be set up for tamper and location geo-fencing.

The Sync Hub included in the 1A-302 kit can support the addition of up to 40 alarm accessories and enables integration with Amazon Alexa, Google Assistant and Philips Hue.

Works With An App

Wireless Data Connection
