

# MASTER LOCK 5480EURD Portable Combination Key Box With Removable Shackle

## Description

---

The Master Lock 5480 combination key box with removable shackle is a portable solution to storing keys for visitor access. A four digit resettable combination locking mechanism is protected from the weather with an integrated cover and the key box has an invisible hinge at the bottom for easy access. Having a removable shackle makes it easy to attach to various things, which provides flexibility for where to store your spare key. Should you wish to fix this in position more permanently then a mounting kit is included to allow this.

4 Wheel Combination Mechanism

Weather Resistant

## Features

---

- Limited lifetime warranty from the manufacturer
- Ideal to securely leave a spare key for visitors
- Not suitable for access cards
- Invisible hinge
- Weatherproof design with integrated cover over the combination dials
