

NiCo Security Plus Shootbolt Gearbox MK2 With 2 x 7.8mm Cams

Description

The NiCo MK 2 gearbox is built to the most exacting standards to provide an effective, secure locking system and a smooth closing action and is fast and easy to fit in a standard eurogroove. It features a 22mm Gearbox and two eccentric cams of 7.8mm, which allow weather seal pressure adjustment of +/- 1mm. Shootbolt extensions are available separately to make the MK2 gearbox suitable for a wide range of window applications.
