

LUCECO 13A Smart Extension Lead With 3 Sockets

Description

A smart extension lead with 3 sockets which simply plugs in to an existing wall socket, enabling the control of smart devices when connected to your existing Wi-Fi. Control and schedule power in the home or outside via touch, voice commands or via the 'BG Home' app.

Set timer schedules, countdown function or random security options all with no expensive gateway hub unit, cloud costs or subscriptions. Fully compatible with Hey Google, Amazon Alexa, Siri Shortcuts and IFTTT this provides a simple solution for smart home integration.
