

FULLEX Crimebeater 220 Pro Lever Operated Latch & Deadbolt Split Spindle 20mm Radius - 2 Hook

Description

The Fullex Crimebeater 220 Pro has been fully tested to PAS 24 standard in a UKAS accredited laboratory and cycle tested to 50,000 cycles, as well as conforming to corrosion resistance standards BS EN 1670. It features 2 opposing hooks with a centre deadbolt and latch (ideal against lifting attack), this lock can be used with either long or short back plate handles. It is designed for use with either composite or timber doors and has an easily reversible latch for convenience in installation. This model is an inline split spindle lock, meaning the external handle can operate the locking mechanism, but will not withdraw the latch without the door cylinder key.

45mm Backset
