

YALE Access Module & Connect Wi-Fi Bridge With Door Sense Kit

Description

This kit enables increased functionality for both new and existing Yale smart lock owners. The Access Module allows Keyless Connected and Conexis L1 owners to connect to the Yale Home app, and The Yale Connect Wi-Fi Bridge connects your smart lock to the internet, letting you lock and unlock your door from anywhere - right from your phone. Instantly let friends, family and home-service providers in even when you're not home, check your lock's status any time, and enjoy more peace of mind with instant alerts every time someone locks or unlocks your door.

Kit Contains:

- 1 x Yale Access Module
- 1 x Yale Connect Wi-Fi Bridge
- 1 x Door Sense
- 1 x Door Sense Cover

Works With An App
