

BORG BL7001 SS ECP Heavy Duty Easicode Pro Digital Lock With Lever Handle And 70mm Latch

Description

The Borg BL7001 SS ECP is suitable for high traffic areas and can be used on internal or external wooden, composite or steel doors. It comes supplied with a 70mm latch and has a stainless steel finish. This unit features the Easicode Pro on the door code change facility and free passage function from the internal handle. The keypad lever is free rotating and only engages with the clutch and 8mm spindle drive until the correct code is entered. A stainless steel coding chamber ensures longevity, and contains 12 buttons.
