

LOCINOX Surface Mounted MAG3000 Electromagnetic Gate Lock With Integrated Handle

Description

The Locinox MAG3000 is a surface mounted electromagnetic gate lock suitable for square posts and gate profiles of 40mm-80mm. Supplied with integrated handles it has a holding force of 300Kg, an anti-residual magnetism kick off system and a raised edge on the magnet housing which prevents crowbar entry between the magnet and the armature plate.

2 Year Guarantee

Weather Resistant
