

## LOCINOX Serval 180 Degree Spring Gate Hinge With Self Drilling Screws

### Description

The Locinox Serval is a compact 180 degree spring hinge with force adjustability. A glass fibre reinforced polyamide housing ensures performance in all weather conditions. It is suitable for both left and right turning gates with a maximum weight of 60Kg and maximum width of 1100mm. Installation is quick and simple due to the self drilling screws and 20mm vertical and horizontal adjustability.

3 Year Guarantee

Weather Resistant
