

LOCINOX Gatelock Sixtylock Insert Set with Keep For 60mm Box Section SAA

Description

The Locinox Sixtylock gate kit includes an insert mortice lock, cylinder, surface mounted SFKO keep, handles and escutcheons and is suitable for 60mm box section metal, aluminium or PVC gates. The mortice lock has a stainless steel adjustable self latching bolt and hook, which combined with the keep ensures a strong and solid closed gate. The handles supplied with this kit are anodized aluminium with a satin finish.
