

EVVA EPSnp L111 Banham Rim Cylinder 1 Bitted

Description

This Evva EPSnp cylinder is supplied 1 bitted with no keys or sidebars, these can only be ordered by customers who have registered their own section with our Evva Department.

The EPSnp mechanical locking system (Extended Profile System) is a very economical solution for a cylinder system offering convenience, manageability and a high level of security. The system contains a wide variety of locking elements covering virtually any application and offers legal and technical key protection mechanisms to ensure a high degree of protection against key copying.
