

GJ LOCKS Securefast Decoding System

Description

This decoder system by GJ Locks can be used for opening both old 7 gauge and the newer black BS locks by Securefast. The method of entry used is non-destructive and allows the lock to be easily re-locked after picking.

UK Manufactured

Features

- Simple to use
- Non-destructive method of entry
- Key constructed using milled brass key bits
- To suit Securefast 7 gauge & black BS locks
- Decoder pick set
