

YALE Lockmaster AutoEngage Heritage Latch & Deadbolt 16mm Square Faceplate 3 Latch Bolt

Description

This Yale Lockmaster AutoEngage heritage multi-point lock from Yale is a key retract mechanism designed to complement contemporary and heritage style doors. Security latches automatically activate on door closure, with a 20mm deadbolt engagement and the unit is reversible for left and right handed composite or timber doors. This multi-point has a 16mm square faceplate manufactured in 430 stainless steel. It is made in Britain, tested to PAS24:2016 and has a manufacturers 10 year mechanical guarantee.

This multipoint offers a solution with a versatile gearbox design which allows for decorative key retract and lever operated door furniture. The automatic lock mechanism instantly engages security latches from independent trigger points as the door closes - removing the need to lift the handle and improving ease of use for those with limited dexterity.
