

# GJ LOCKS Fortress, Strongbolt & Yale Decoding System

## Description

This GJ Lock multi-tool allows the user to decode and open the ERA Fortress deadlock and sashlock, Union Strongbolt 2100, 2105, 2200, 2205 and Yale British standard 5 lever locks PM562, PM560, PM552 and PM550. This tool is easy to use and allow the user to identify the lever number quickly and to create a make up key to open the lock. The charts included are laminated as the manufacturer no longer supplies metal charts.

Mortice Key

UK Manufactured
