

GU Intumescent Kit For Concealed Door Closers

Description

The L-0002-00 by GU is an intumescent kit designed for use with the GU concealed door closer (L-0002-06) to enhance the fire safety of door hardware, helping to prevent the spread of fire by expanding when heated. It is 2mm thick and supplied pre cut out in a self adhesive template which wraps around the closer body and guide rail.

Fire Tested
