

Description

The Bifold range of folding door hardware is designed for use with folding wardrobe and cupboard doors weighing up to 14Kg. With a nylon guide and an adjustable bottom pivot assembly, the Bifold provides a smooth, stable and silent operation and it is suitable for use on timber, timber framed and composite doors with a thickness between 18mm and 35mm.

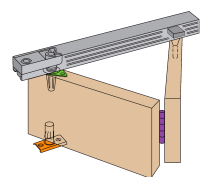

Features

- No bottom track required
- Leaves fold back completely
- Silent and easy to fix - nylon spring-loaded guides with attractive aluminium top track
- Suitable for jambless openings
- Stable and smooth running
- For timber, timber framed or composite doors up to 14Kg
