

Description

The Cello Double Track Sliding Door Gear from Henderson ideal for use with timber framed composite bottom rolling wardrobe or cupboard doors weighing up to 25kg each. It features quiet-function face-fixed nylon rollers on an aluminium track and it is suitable for doors with a maximum width of 920mm and between 16mm and 40mm thickness. In order to create opening widths of up to 2400mm, two and three door kits are available; a fitting kit is available for when an additional door is required.

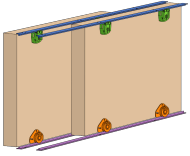

Features

- Bottom rolling so door weight supported by floor
- Simple to remove doors for cleaning and decorating
- Easily to install with no routing required
- Quiet nylon rollers on attractive aluminium track
