

### Description

Hendersons Husky 25 Folding Track Sliding Door Gear is designed for use with timber, timber framed and composite doors. It is suitable for use with lightweight folding interior doors up to 25Kg in weight and gives the doors a smooth and quiet operation. The Husky 25 features concealed fixings and a robust floor gear for a neat and modern aesthetic. When requiring to add an extra door, additional fitting kits are available (HF2/25 for 2 door and HF4/24 for 4 door). Additional fixing kits are supplied separately.

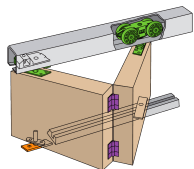

### Features

- Concealed fixings for a neat aesthetic
- Gives doors a smooth and quiet operation
- Suitable for use with lightweight doors up to 25kg
- For timber, timber framed and composite doors
