

Description

The Marathon Senior Single Track Sliding Door Gear from Henderson has the same capabilities as the Marathon Junior, except that it can work with a heavier weight of door leaf. This model is designed for use on wooden and metal sliding doors which weigh up to 90kg. It features nylon plates and guide channel, helping to provide a smooth and quiet operation and it is easy to adjust. Simply add on optional extras such as a fire door kit or self closing kit to complement the system and add extra capability.

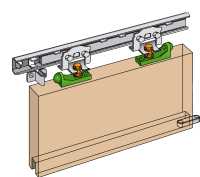

Kit Contains:

- 1x Top Assembly
- 2x Nylon Top Plates
- 2x Wall Mounted Stops
- 1 x Nylon Floor Guide
- 1 x Channel
- 1 x Guide Channel

Features

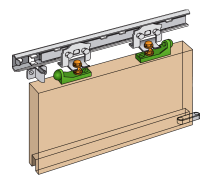

- Can be used externally if gear is adequately protected against the weather
- Soffit fix option available
- For sliding wooden and metal doors weighing up to 90kg
- Simultaneous action option
- Easily adjustable door height
