

Description

The Phantom Single Door Sliding Track Gear is designed for use on sliding wooden room dividers weighing up to 45kg and 30mm to 50mm thick. Phantom is ideal for those environments in which a silent sliding mechanism is a priority, such as bedrooms and hotels, with its frictionless nylon guide and track providing an ultra quiet operation. Two kits can be used together to make a solution for double doors.

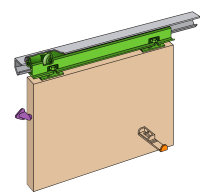

Kit Contains:

- 1x Soffit Fixed Track
- 1x Hanger
- 1x Nylon Guide
- 1x Stop

Features

- For sliding wooden room dividers weighing up to 45kg
- Simultaneous action option
- Floor component - guide only
- Ultra silent, frictionless, easy operation
- For timber, timber framed or composite doors
