

Description

Commonly found on site container doors and other multi point locking doorsets, the Hooply 2018T is compatible with all of the Hooply steel door lever range. Featuring a curved lever pair with a Euro profile cut-out, thumbturn on the internal handle, and a satin nickel finish, these handles are designed to be similar to a UPVC door handle, allowing you to transform your panelled doorset into an aesthetically pleasing domestic door.

68mm Centres

Operated By Euro Cylinder

Features

- Similar to UPVC handle
- Curved lever pair
- Handed product
- Designed for use with a euro cylinder (cylinders sold separately)
