

HPC CCPK 15 Colour Coded Pick Set With Case

Description

The Color Coded Pick Packs make finding the pick that you need quicker than ever. Thanks to the colour coded system, there's no more need to fumble through all your picks to find the right tool you need. HPC's Color Coded Pick Series includes a different color handle for each type of pick: red for rakes, blue for hooks, gold for diamonds, and green for balls. The aluminum handles provide for a lighter feel than stainless steel. The Extractors are stainless steel for strength and flexibility.

Features

- Colour coded for quick recognition of the right tool
- 15 piece assortment
