

HPC CO82 Super Thru Car Clutch Car Opener

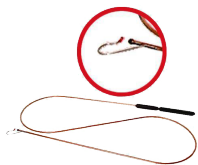

Description

The HPC CO82 Super Thru Car Clutch™ Tool is perfect for hooking an inside door handle, manipulating lock buttons and switches or to retrieve keys. This tool is 7 feet (2.13m) long and has a flexible shaft and retractable hook with a rubberized tip. When the handles of the tool are separated, the hook at the end of the tool is pulled inward causing the tool to grip or bind.

Features

- Length: 7ft (213cm)
- When the handles are separated the hook closes in to grab door handles or retrieve keys
