

HPC EPG-1 Electric Pick Gun

Description

The HPC EPG-1 Electric Pick Gun is the original cordless electric pick gun. The gun rakes open pin and disc tumbler cylinders using a rapid up and down striking movement, which causes the top and bottom pins to separate, meeting the shear line. This up and down motion is adjustable by a thumbscrew with a locking nut controlling the action after the range of motion is set. The EPG-1 is powered by 4 AA batteries and comes complete with 4 pick blades and 2 tension tools.
