

## HPC TNT Torque Tension Tool

### Description

---

Incorrect tension is one of the most common causes of picking failure. Use of these tools provides an easy method to apply the correct amount of tension every time. All Torque and Tension tools provide a large opening diameter allowing unrestricted entry of picking tools. The dual prongs ensure even torque, always keeping the plug in proper alignment. All units are feather weight and pocket sized with easy to hold knurled collars.

### Features

---

- To be inserted in the keyway
- Spring-loaded tension with finger-tip control
- Adjustable prong to fit in most cylinders
- Has longer prongs for use on automotive door locks
