

HPC TPT-5 Tweezers With Pin Pushing Attachment

Description

The HPC TPT-5 Tweezers With Pin Pushing Attachment makes it easier to load top pins into a cylinder. Whilst a top pin is held in place, use your forefinger to push the attachment down to set the pin into the chamber. The pin loading wire is easily removable, making the TPT-5 ideal for loading bottom pins as well.

Features

- Easily removable pin loading wire
- Pin tumbler tweezers with pushing attachment make for easier top pins loading
