

DORMAKABA E-Plex 2000 Battery Operated Digital Lock

Description

The weather resistant E-Plex 2000 series from dormakaba (formerly known as Kaba) is an electronic digital lock solution. The lock can be easily programmed via the keypad and does not require the lock to be removed from the door. Alternatively, the lock can be programmed using an optional Microsoft Excel-based software. With no wiring required, the E-Plex 2000 is easy to install. This unit supports up to 100 user codes and features a key override.
