

## Description

---

This 16mm birmingham door bar is a flat security bar used to strengthen the hinged side of a door frame on inward opening doors. It can also be used to strengthen the frame on the locking part side if only mortice locks are fitted.

## Features

---

- Polyester powder coated finish
- Manufactured from high grade 5mm thick, flat steel with rounded edge and countersunk fixing holes
- Dual purpose flat security bar to strengthen either side of the door if only mortice locks are fitted
