

Description

The Kickstop London Bar is a door frame reinforcing bar with a 'D' shaped staple to fit over the staple (keep) of a surface fitted rim lock or cylinder nightlatch. This effective steel anti-burglary device is screwed on to the internal face of the lock side of the frame and will resist kicking, splitting and forcing open of the door. This universal version is designed for those customers who are not sure whether they need a standard or large door bar.

Features

- D shaped staple
- Including packet of 2.5 inch long No.10 hardened steel woodscrews
- To reinforce wooden door frame fitted with a surface mounted rim lock or nightlatch
- Adjustable staple size (30x70mm to 30x97mm)
- 5mm thick steel bar with rounded edge & countersunk holes
