

ASEC 180 Degree PIR Detectors with LED Comfort Light

Description

The Asec 180° PIR Detectors with LED Comfort Light stays illuminated during dark hours due to its `dusk til dawn` comfort light feature. This product is suitable for use with dimmable LEDs. It is a versatile light with adjustable time-on (8 seconds to 12 minutes) and adjustable lux level. The PIR detection range reaches up to 12 metres, with a detection zone of 180°, and is supplied with a bracket which is suitable for mounting to either walls or ceilings.
