

## Description

---

The Master Lock 0298 0627 Adaptor / Driver allows door hardware cylinders of door hardware locks to drive the actuator. When using a Medeco 20-20000 or 20W20000 cylinder, it is highly recommended you use a number 298-0627 driver.

## Features

---

- Includes only the adaptor / driver
- Positioning the driver on the cylinder should always be done to ensure that the orientation of the driver forms the assembly profile at the right
- Suitable for Medeco 20-20000 or 20W20000 cylinders
