

MASTER LOCK 175 Brass Open Shackle Combination Padlock

Description

The Master Lock 175 Brass Open Shackle Combination Padlocks are specifically designed for keyless convenience and true personalized security. These padlocks have a solid brass body combined with a hardened steel shackle, and incorporate a 4-digit combination mechanism that can be reset with the included reset tool. The Master Lock 175 Combination padlocks are particularly suitable for securing sheds, garages and residential gates.

Combination Mechanism
