

MASTER LOCK - American Lock A802 High Security Hasp for Hidden Shackle Padlocks

Description

The Master Lock - American Lock A802 High Security Hasp is made of steel for maximum strength & durability, and designed so hidden shackle padlocks can be attached directly to the hasp. American Lock High Security hasps are particularly suitable for securing sliding and swinging doors on garages, storage buildings, vehicles, commercial buildings, industrial plants and vending machines. The A802, furthermore, secures overlapping trailer doors with a raised lip or seal.

Features

- Dimensions: 291x114mm
