

MASTER LOCK Weather Resistant Long Shackle Bluetooth Padlock

Description

Never worry about forgetting your key or combination again with the Master Lock Bluetooth Padlock. With the easy-to-use Master Lock Vault™ app you can not only unlock your padlock but you can also share access with guests and monitor activity - making this an ideal solution for businesses with shift or contract workers.

With a boron carbide shackle and dual rolled pin locking mechanism you can rest easy knowing that your padlock has a high resistance against both bolt cutter and prying attacks. This long shackle version is weatherproof and therefore suitable for external use.

Works With An App

Weather Resistant

Features

- Boron carbide shackle for better resistance to bolt cutter
- Dual rolled pin locking mechanism / Pry resistant body
- Use the app to view padlock use statistics such as who had access, when and for how long
- Share access remotely via the free Master Lock Vault™ app for Android and iOS, access can be granted for limited time frames
