

## MASTER LOCK MLD08EB Compact Fingerprint Combination Safe

### Description

---

The Master Lock Compact Safe features a fingerprint lock and gas strut to allow for quick access to the safes contents. This small safe is popular for domestic and commercial use and includes an interior tray to help keep your valuables organised. The compact size makes this safe ideal for storing small electronic devices, passports, jewellery and cash. The safe features a resettable digital combination as well as a key override function in addition to the fingerprint lock, to allow for flexible access.

### Features

---

- Integrated compression gas strut for quiet entry
- Invisible hinges to protect against prying attempts
- 3 access methods; fingerprint, code or override key
- Supplied with optional bolt down fixings
- Solid steel construct
- 4 x AA batteries (not included)
