

Description

The Mila Supa range of superior grade stainless steel hardware offers exceptional strength and corrosion resistance. This lever/pad door handle with 92/62mm centres and a 240mm backplate is designed to fit most multi-point door locks fitted with a Euro-cylinder.

Available in two stylish finishes, these handles are recommended for use where corrosion is a concern, such as highly polluted or coastal areas. For added peace of mind, these handles come with a 25 year surface finish guarantee.

25 Year Guarantee
