

## Description

---

The term 'Hands free access control' means the token that identifies a user is read from within a pocket or handbag. No hands required. This is useful for gates and barriers, loading doors and where disabled or elderly people require access. The hands free keyfobs, in conjunction with hands free interface, achieve this using the unique wireless technology.

Weather Resistant

## Features

---

- Ideal for areas where longer read range is required
- For use with car park barriers
