

Description

Manufactured in Britain, the Garage Defender from PJB Security is an ideal security measure for garages as it locks onto a solid steel base to block the tilt action of garage doors. It is quick and easy to install, supplied with two expandable security raw bolts and full fitting instructions.

It is available either with or without a solid protected-shackle padlock. The version supplied with a padlock is Sold Secure Bronze Approved, with a 5 Pin removable lock barrel and a solid round steel lock body to resist pick and pry attack. The garage defender has a heavy duty construction with a hard wearing black powder coated finish, providing an incredibly quick and easy way to improve garage security.
