

QUICK CAPS Lock To Suit Quick Release Cycle Wheels

Description

Designed and manufactured in the UK, the Quick Cap lock for quick release wheels is a unique product that gives user a quick-to-fit solution for vehicle security. A strong deterrent for bike thieves, the Quick Cap clamps to the lever side of the wheel and locks in place. They can also be left in place whilst cycling, meaning they can be fitted and forgotten about until the next time the rider needs to remove their wheels.
