

SAFE VENTURE TOOLS Ford/Jaguar Tibbe Decoder Pick

Description

A non-destructive way of picking a tibbe lock (Ford & Jaguar) and then cutting a key from the readings, ideal for lost key scenarios.

Features

- Easy to use
- Lock has to be opened before decoding lock
- Once decoded, pick can be used to identify the code for key production
- For use on ford 6 disc and Jaguar 8 disc versions
- Can be used on old and new versions
