

ADVANCED DIAGNOSTICS ADC240 Smart Dongle

Description

The innovative Advanced Diagnostics Smart Dongle replaces the existing dongle range with one automatic configurable dongle suitable for all makes and models for key programming purposes. Simply connect the Smart Dongle to your Pro tester and it will automatically configure itself for the vehicle it is connected to.

The integrated Security Calculator & Smartcard eliminates the need for users to manually enter security codes on the calculator and tester and the built-in additional hardware expansion ports gives users the option to enhance their dongle with powerful add-on services.
