

ADVANCED DIAGNOSTICS ADC243 RW4 Pre-Coding Cable

Description

ADC243 is specifically developed for customers who use the Silca Fast Copy Plus / RW4 Plus (or Fast Copy + P-Box / RW4 + P-Box) and also have an AD Pro programming device (AD100 Pro or MVP Pro) with Smart Dongle. The two devices can now be easily connected together using the ADC243 Power Cable giving locksmiths that have not purchased Smart Aerial an alternative solution for pre-coding transponders using Silca and AD devices.
