

## ADVANCED DIAGNOSTICS ADS231 Fiat Key Programming Software 2015

### Description

---

The AD231 Fiat 2015 software from Advanced Diagnostics now includes pincode reading and pre-coding for the Fiat 500L as well as various other manufacturers.

Pre-coding can be performed in the background using the Smart Aerial and Smart Dongle, saving locksmiths time from having to switch to another device. Pre-coding can also be achieved with the use of a Silca cloning device and the ADC243 power cable.

This program must be used in conjunction with Advanced Diagnostic software ADS185.
