

## Description

---

The ADC199 Pin Saver Adaptor from Advanced Diagnostics is designed to protect pins and the main circuit board against wear and tear caused by plugging and unplugging. It screws into the 25-way pin connector of the pro unit and is compatible with all AD100Pro, MVPPro and Classic testers.

## Features

---

- Permanently screws into the 25-way pin connector of the pro unit
- Helps to avoid wear and tear from continual plugging and unplugging of the master OBD connector
- Prevents damage to the main circuit board
- Designed for use with all AD100Pro, MVPPro and Classic testers
