

D&D Lockable Top Pull MagnaLatch Series 3 Gate Latch with Electronic Alarm

Description

This Series 3 Lockable Top Pull MagnaLatch with Electronic Alarm from D&D Technologies could be their most superior gate locking product, having been tested to 2 million cycles and improved to be 50% stronger than before. Featuring a 6 pin rekeyable security lock, this latch provides both audio and visual alerts to provide a quick indication if the gate is not secure. After 15 seconds, an opened gate beep warning will turn into a full alarm

It is ideal for child safety purposes, and meets all pool barrier codes. The lock is easily installed with no special tools required, fitting to both metal and wooden gates. The magnetic latching is ideal for reliability as it always engages and cannot jam, and the innovative design allows for vertical and horizontal adjustment, with useful alignment indicators.

Supplied With 2 Keys

Weather Resistant
