

SILCA 2 - Gold Key Cutting Package

Description

The Gold starter package contains everything you need to start copying a wide variety of keys including cylinder, car, bit, double bit (male & female), pump keys, central stop and cruciform keys. Because of our extensive knowledge and experience, the key blank selection provided will allow you to be able to copy the vast majority of keys brought to you.

The package includes our popular mortice keyboard (40 blank types) and a complete set of 3 x full cylinder keyboards (133 blank types in total); these boards come complete with 5 key blanks per hook (a total of 665 cylinder blanks and 200 mortice blanks).

The Silca Rekord Key Machine and the Silca Fastbit Key Machine mean you can offer your customers a wide range of key cutting services. The Silca Rekord Key Machine can cut cylinder, car and cruciform keys whilst the Silca Fastbit Key Machine is suitable for duplicating bit, double bit (male & female), pump keys and central stop keys.

In addition to the key cutting machine, keyboards and key blanks there are a range of the most useful accessories including:

- Keyway panel, this lets you push a key through a keyhole shape to help identify the required cylinder key blank
- Pin & Pipe Gauge, this allows you to identify the correct gauge of mortice key blank
- File & Handle Set, this allows you to hand finish mortice keys for that professional finish
- Silca Catalogue, the ideal tool to quickly and easily identify the right cylinder blank.

This package is available to special order only and is despatched within 5 working days, please call our team on 0203 0076060 to discuss your requirement and help you enter this highly lucrative market.
