

## SILCA D746776ZB Easy Scan Plus Residential Remote Programmer

### Description

---

The Silca Easy Scan Plus is a complete and easy to use system for duplicating residential remotes. With its patented NFC (near field communication) technology, as well as new advanced software, it provides a quick and effective process for duplication. It guides the user through the process step by step, from identifying the original to displaying which Silca remote is needed and copying the new remote. The Easy Scan Plus can be operated in two modes, either as Stand Alone or connected via PC, using the downloadable Air 4 Remote Programming Software.

### Features

---

- Lightweight and portable
- Supplied complete with 2 x rechargeable batteries and USB cable
- Finely tunes remote frequency
- Signals whether it is possible to duplicate the remote and, if so, which Silca Air4 remote to use
- Generate most popular remotes without need for the original using the software database
- Identifies the frequency and code type of the original remote (fixed or rolling code)
