

Description

This tool takes all the guesswork out of fitting the strike plate in the doorframe. Simply fit the lock, close the door, throw the bolt as far as it will go, set the gauge on the bolt, open the door and accurately mark all four corner positions of the bolt.

Features

- Thin location blade
- Rubber anti-slip inserts
- 2 piece plastic handle
- Supplied with illustrated instructions
- Simple to use
- Steel slider retained in place by action of magnet embedded in the block
- Quickly locate and mark all 4 bolt corners on the door frame
- This tool helps to fit the strike plate in the door frame
