

SOUBER TOOLS Full Height Edge Fix Anti-Thrust Lock Guard Plate

Description

A full length stainless steel anti-thrust plate, suitable for both single and double doors. A very secure and highly effective way to protect the locks on vulnerable, outward opening doors.

Features

- Ends can be cut down to reduce the total height of 1900mm by up to 140mm
- Can be adapted to suit rebated doors (hacksaw required)
- Incorporates 4 Heavy Duty fixing plates
- Very robust and rigid design
- Suitable of single or double doors
- Made from 4mm thick Brushed Stainless Steel
