

SQUIRE SS65S Stronghold Steel Open Shackle Padlock

Description

The Stronghold SS65S is a solid hardened steel padlock open shackle padlock manufactured in the UK. Its electrophoretic finish combined with outer casing ensures that it will function reliably in the harshest weather conditions. Tested to meet CEN Grade 5 it is a high security open shackle padlock featuring double ball bearing locking and a 12.7mm diameter boron steel shackle.
